

# Voting results for Catalyst Fund 7

## INTRODUCTION

### How to use this document

Here is a list of references that we think can help you to go through this document:

#### PROPOSAL

Title of proposal with link to Ideascala

#### OVERALL SCORE

Final CA assessment score after QA by veterans

#### UNIQUE WALLETS

Number of unique ballots cast per proposal  
Each wallet can vote only once per proposal

#### VOTES YES

Total Voting Power applied in favor of a proposal

#### VOTES NO

Total Voting Power applied against a proposal

#### VOTING RESULT

Difference between voting power applied for and against a proposal

Positive value indicates more yes votes and negative value indicates more no votes. Table is filtered in descending order according to this value.

#### PROPOSAL BUDGET

Funds requested by proposal

#### LEFT-OVERS

Left-Over Funds Allocation

After applying the funding algorithm \$147,668 worth of ada was left over. We have allocated the left-over funds to the top voted unfunded proposals.

#### FUNDED

Proposals that won funding. Congratulations!

Highest 'result' gets funding first; if approved but not enough budget remaining then move to next one.

#### NOT FUNDED

Met criteria for approval, but budgets exceeded the remaining treasury funds

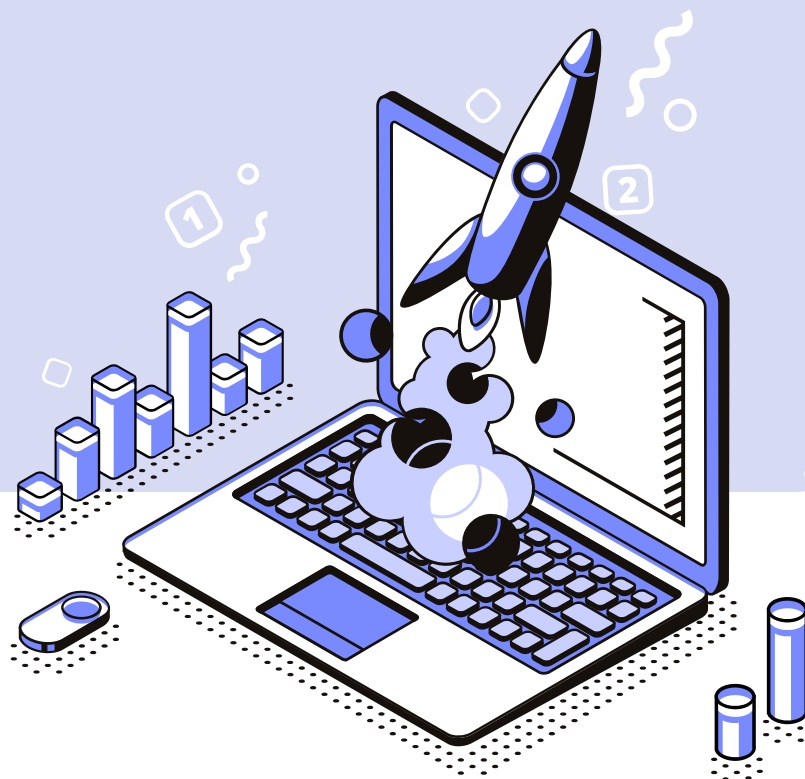

>1% of total stake voted (yes or no) >15% difference between yes and no votes.

#### NOT APPROVED

Proposals that did not receive enough positive votes to be approved.

## Fund 7 Winners

### WINNERS SUMMARY

## Which proposals received funding?

Votes have been tallied. Take a look at the proposals that **are going to be funded**.

## Fund Results

### RESULTS TABLE

#### Fund 7 voting results in detail

The Catalyst team would like to thank all proposers who have shown the courage to participate. We hope that even if you didn't win the vote this time, you gained something from the process. **We encourage you to re-apply again in the following fund.**

Next you will find a **complete list of all the proposals** participating in this fund.

For a spreadsheet format you can sort and filter, you can see a  
**Google Sheets version of table here**
